

## **Building Automation Controls Specialist**

Full-Time

DMG is a regional, independent sales agency for premier commercial HVAC equipment representing engineered products designed and customized to meet our customer's specific needs. Located in Orange, California. We are growing and looking for talented, dedicated people to join our Team.

Our Service and Controls Division (DMG SC) is focused on providing high quality, local support for the products DMG represents. Our Controls Team works with customers to optimize equipment with customized, user-friendly solutions.

We are seeking a talented and dedicated Building Automation Controls Specialist to join our team. This role is responsible for performing tasks related to programming and commissioning of Building Automation Systems.

### **Responsibilities:**

- Control programming of building automation systems for commercial buildings
- Program Tridium based controllers to sequence
- Build control graphics for customer front-end view of a system
- Update software, troubleshoot complex systems, and create programming software
- Communicate with customers, provide training, and recommend system improvements
- Coordinate with managers, provide technical recommendations for sales, and submit documentation promptly
- Occasionally visit job sites for field programming and troubleshooting
- Maintain technical proficiency through self-study and certifications

### **Qualifications:**

- Building automation systems (BAS) or commercial HVAC controls experience
- Familiarity with BAS systems such as Distech, Honeywell, or other

### **Preferred Qualifications:**

- Experience with Tridium Niagara
- HVAC controls programming
- BACnet communication protocol
- Familiarity with mechanical drawings

We offer top tier medical, dental and vision benefits, a 401(k) Plan with Employer Matching, Paid Time Off and Paid Holidays.
