LG Multi V i - Installation Essentials

Who should attend:
Anyone involved in the installation of VRF systems. Related trades include mechanical, sheet metal, piping, plumbing, low voltage controls wiring, controls integration, and power. Service and startup technicians should attend this class as a pre-requisite to advanced service and commissioning courses.

What you will learn:
The manufacturer's guidelines for installing the piping and wiring systems connected to the indoor and outdoor LG Multi V™ air conditioning equipment.

Prerequisites:
Advanced technical knowledge of commercial a/c, heat pump, and applied systems.
Basic working knowledge of Microsoft Office programs including Excel, PowerPoint and Word.

What to bring to training:
Windows based Laptop capable of running LG Service and Design Tools.

When:
October 7, 2026 - 8 am to 3pm (Lunch is provided)

Where:
DMG Castro Valley 4795 Heyer Ave, Castro Valley, CA 94546
